

# High quality grape must/juice from *vitis vinifera* grapes

Create the balance or nuance you need with our high-quality grape juice/must

Harvested from *vitis vinifera* grapes from southern Europe, our must/juice concentrates are ideal for your wine, wine drinks or vinegar products.

Only 100% grape juice

Tinted to meet your needs, from light to intensely colored

Concentrated to the level you need

Stable quality you can depend on year round

Whether you're blending our must with locally grown pressed grapes or with imported bulk product for use as a fermentation base, we understand your needs.

We produce a wide range of grape must concentrates from top varieties of white and red grapes with different color, Brix and SO<sub>2</sub> content.

Our 100% natural grape must/juice concentrates are ideal for increasing sugar content, enhancing color, or as a base for the fermentation process in wines and other alcoholic beverages.

Our rectified grape must contains only the natural grape liquid and sugar (dextrose and fructose), and all minerals, acids, odor and color have been removed.

	Red grape juice concentrate	White grape juice concentrate	Rectified grape juice/grape syrup
Flavor	Characteristic taste of <i>vitis vinifera</i>	Characteristic taste of <i>vitis vinifera</i>	N/A
